EXPERIENCE

tny.   Dec 2024 – Present
Senior Frontend Developer   *London Area, United Kingdom*
· **Project SMT:** Developed a high-performance dashboard for order management (150,000+ orders/month), optimized performance with advanced filtering, and ensured system stability under high load.
· **Project CSMP:** Led architectural and technical decisions for an adaptive interface to manage orders and subscriptions; created dynamic UIs for order modifications and cancellations, and delivered scalable solutions for onboarding new brands.

Sigli / Copaco.com   Feb 2024 – Feb 2025
Senior Software Engineer   *Vilniaus, Lithuania*
· Redesigned over 20 client-facing pages and refactored 100,000+ lines of legacy code to boost performance and maintainability.
· Implemented new features and contributed to architectural decisions for enhanced scalability and system stability within an international team.

HT.KZ   May 2020 – Mar 2024
Software Engineer   *Almaty, Kazakhstan*
· **CRM (HT.KZ):** Integrated WhatsApp, implemented Amplitude tracking, optimized performance through code refactoring, and enhanced telephony management with improved notifications and direct call capabilities.
· **Travel Search Engine (HT.KZ):** Fixed critical bugs and fully integrated the search engine with the CRM for seamless data synchronization.

parakozm.   Nov 2019 – Apr 2020
Software Engineer   *Nur-Sultan, Kazakhstan*
· Developed a Learning Management System (LMS) using the MERN stack, designed intuitive interfaces, and provided input on key architectural decisions.

Stack: MongoDB, Express.JS, React, Node.js.

NDA   Feb 2018 – Nov 2019
Python Developer   *Kazakhstan*
· Designed advanced web scrapers using Selenium and BeautifulSoup4, built robust APIs with Django Rest Framework, and developed Telegram bots to automate content posting.
